

Body of lioness found close to Gir forests in Gujarat

Amreli, Dec 6 (UNI) The decomposed body of a young lioness has been found from a field in Talala area of Gir Somnath district, DCF Gir West Dhiraj Mittal said here on Thursday.

Mittal told UNI that the badly decomposed body of a 5 to 6 year old lioness was found in Ambalsh village in revenue area close to Talala range in western parts of the Gir forests the sole abode of Asiatic lions.

“I had visited the place to verify the claims that it had three cubs also and they had gone missing. It has not yet been verified,” he said.

” There were no injury marks on the body.
